Greenbriar Capital Corp.

Amended Notes to Condensed Consolidated Interim Financial Statements

June 30, 2012

(Expressed in Canadian dollars)

(Unaudited)

1. General Information

Greenbriar Capital Corp. was incorporated under the Canada Business Corporations Act on April 2, 2009 and is a real estate issuer on the TSX Venture Exchange. The Company's head office is located at Suite 1328, 885 West Georgia Street, Vancouver, British Columbia, V6C 3E8. On August 2, 2011, Greenbriar incorporated Greenbriar Capital Holdco Inc. ("Greenbriar USA"), a Delaware corporation. Greenbriar is the sole shareholder of Greenbriar USA. On August 2, 2011, Greenbriar USA formed Greenbriar Capital (U.S.) LLC ("Greenbriar LLC"), a limited liability corporation formed under the laws of the State of Delaware. Greenbriar USA is the sole member and manager of Greenbriar LLC.

On October 6, 2011 the Company received approval from the TSX Venture Exchange approving its qualifying transaction and non-brokered private placement. The Company is listed as a Tier 2 real estate issuer and is no longer considered a Capital Pool Company. The Company's shares trade on the exchange under the symbol "GRB".

These condensed consolidated interim financial statements have been prepared on a going concern basis which assumes that the Company will be able to realize assets and discharge liabilities in the normal course of business. The nature of the Company's business is the acquisition, management, development, and eventual sale of its property and any other properties it acquires in the future. The Company has been successful to date in acquiring its first property, however future inflows of cash are dependent on actions by management to bring the property to completion including the eventual sale of property lots and raising additional capital for other acquisitions if required. The Company has no history of operations, earnings or revenues. However, the Company anticipates that existing cash resources will be sufficient to cover its funding requirements for the ensuing year. If it is unable to generate cash flow from the sale or otherwise disposition of the property, or if it is unable to raise any additional funds, it could have a material adverse effect on its financial condition and cause significant doubt about the company's ability to continue as a going concern. If the going concern basis was not appropriate for these condensed consolidated interim financial statements, then significant adjustments would be necessary to the carrying value of assets and liabilities, the reported statement of loss and comprehensive loss and the financial position classification.

2. Significant accounting policies

(a) *Statement of compliance*

These condensed consolidated interim financial statements, including comparatives, have been prepared in accordance with International Accounting Standard 34 "Interim Financial Reporting" ("IAS 34") using accounting policies consistent with the International Financial Reporting Standards ("IFRS") issued by the International Accounting Standards Board ("IASB") and Interpretations of the IFRS Interpretations Committee.

(b) *Basis of presentation*

These condensed consolidated interim financial statements have been prepared on the basis of accounting policies and methods of computation consistent with those applied in the Company's December 31, 2011 consolidated annual financial statements.

(ii) Effective for annual periods beginning on or after January 1, 2013

The Company is exposed to short-term interest rates through the interest earned on cash balances; however, management does not believe this exposure is significant.

(c) Credit risk

The Company is exposed to credit risk through its cash which is held in large Canadian financial institutions and its HST receivable. The Company believes the credit risk for cash on deposit is insignificant. Cash is reported at fair value, using level 1 of the fair value hierarchy. The Company's exposure is limited to amounts reported within the statement of financial position.
